

Transcription “Dialogue in the Dark - Testimonials”

“Dialogue in the Dark was fantastic; it was such an immersive experience.”

“... I guess ‘unique’ is probably the best word for it?” “Yeah” “I have never done anything like this.”

“Life is not just all about how things look.”

“You quite often think ‘Where am I?’, ‘What is that sound?’. I am in a space, I got a cane, but I just don’t know which way to turn.”

“We had a very, very good guide who gave us real assurance.”

“The comfort she had in navigating the environment, in explaining what is going on, and in the very human way of describing how she experiences Melbourne, this is wonderful.”

“I knew that it would be quite overwhelming, so that was certainly confirmed, but I didn’t realize I get a new perspective on all the things about Melbourne that I know in life..”

“...and yet it is so much life changing that when you step out you have to appreciate that some people live with this every day of their live.”

“It is a definitely whole new world and a whole new experience. I think everybody needs to do this...”

“...from kids to teenagers, uni students...”

“It was an absolutely life changing experience.”

“...just gives you an opportunity to experience what somebody else’s life is like, and help you to empathize and, you know, just connect with others in the community.”

Are you ready to challenge darkness?
